Varendra University

Department of Computer Science and Engineering

6th Semester Class Test Examination (Summer-2026)

Course Code: CSE 3205

Course Title: Microprocessor and Assembly Language

Time: 20 minute **Marks: 10**

(Answer the following questions)

The figures in the right margin indicate full marks for the respective question.

1. What are the main parts of a CPU? Explain the operation of Control Unit. **4**

2. Why is the Central Processing Unit (CPU) referred to as the "brain" of a computer? **2**

3. Differentiate between microprocessor and microcontroller. **4**

Course Title: Microprocessor and Assembly Language

Time: 20 minute **Marks: 10**

(Answer the following questions)

The figures in the right margin indicate full marks for the respective question.

1. What are the main parts of a CPU? Describe the major operations performed by the Arithmetic Logic Unit (ALU). **4**

2. What is meant by a 64-bit processor? **2**

3. Differentiate between microprocessor and microcontroller. **4**

Course Title: Microprocessor and Assembly Language

Time: 20 minute **Marks: 10**

(Answer the following questions)

The figures in the right margin indicate full marks for the respective question.

1. Illustrate the concept of Pipelining vs Non-Pipelining with a diagram and highlight two key advantages of pipelining. **4**

2. Why CPU is called the brain of the computer? **2**

3. Differentiate between the Intel 8085 and Intel 8086 Microprocessor. **4**
